

Shmaiter Morales Rizo

Full Stack Developer

Costa Rica, Alajuela, San Carlos. (open to relocation)

About Me

Full-Stack Developer inspired by Graphic Design. Interested in bringing the client's business closer to competitive positions in the market, while exploring and implementing the best possible combination of methods and technologies to design user-friendly, fresh, and distinguished applications.

Projects

Adopt-Me, WebApp. 12/2021 – 02/2022

A project where anywhere looking for a pet can search them by name, specie, or breed. It was necessary to apply hooks under dropdowns and modals for maximizing every window pet details. A pagination method was created to roll over all the results. Front-End with ReactJS, JavaScript, CSS.

Keeper, WebApp. 01/2022 – 02/2022

Simple and fresh web for creating and deleting notes from your courses, customized by color, date and topic. Front-End with ReactJS (Flux, Hooks) and Material-UI. Back-End with MongoDB and Mongoose.

Birdy, WebApp. 04/2021 – 05/2021

Final project created in 4GeeksAcademy Bootcamp for Full-Stack Developer. MVP was designed to save, add and share sounds of birds and their basic information for each user, through a web page that allowed the information of these to be socialized. Front-End with ReactJS (Flux, Hooks), Bootstrap, and data retrieved from API (Xeno-Canto). Back-End with Python (Flask), PostgreSQL SQLAlchemy.

Education
